

I will not let the children of Newtown die in vain. Will you?

I sincerely urge you to support the following controls:

A ban on high capacity ammunition magazines (with no grandfathering)

A strengthening of assault weapons ban (with no grandfathering)

The requirement of permits and universal background checks on ALL sales and transfers of guns, including long guns

The requirement of registration of handguns with annual renewal

The requirement of annual fee and annual background check for all handguns owned

The requirement that gun owners must stipulate that guns in their name are in their possession or must explain how the gun was transferred to another person

Required safety inspection every three years

Real consequences and liability liable for negligent storage: if any other person gains access to a gun owner's firearms and injures himself or another person or causes damage to property, the violation should be a Class D felony

A ban on the right of way for transportation of firearms and ammunition bought over the Internet

Taxation of ammunition sales

A requirement of a license/permit to purchase any gun or ammunition

The restriction of handgun sales to one gun/month

These are reasonable measures that will be truly effective at keeping guns out of the hands of those who shouldn't have them and making gun ownership safer for those who are allowed them.

We need to change the existing climate of gun violence that has developed this country, but this can't happen without common sense checks and balances. Please do what it takes to enact these gun control and safety controls.

Please do the right thing!!!!
